

PROTECTGUARD®

QUEENS DOMAIN APARTMENTS : APPLICATION OF PROTECTGUARD

One of Melbourne's newest premium addresses with uninterrupted views of Albert Park Lake and Port Phillip Bay. Developed by Kangoala and PDA Australia, Queens Domain is comprised of 232, one, two and three bedroom apartments and penthouses, designed by Nexus Design in conjunction with DKO Architecture.

All 232 apartments were lavished on floors throughout and floor to ceiling wall tiles in the bathrooms with a beautiful honed limestone tile.

ProtectGuard Penetrating sealer was chosen among many for it's long life total protection against water and stains and the added benefit of being water-based, leaving no smell so not to disrupt other works while sealing was being completed.
